

EnsDb.Mmusculus.v75

October 18, 2023

EnsDb.Mmusculus.v75 *Ensembl based annotation package*

Description

This package loads an SQL connection to a database containing annotations from Ensembl. For examples and help on functions see the help pages from the `ensemldb` package!

Note

This data package was made from resources at Ensembl on Thu May 18 10:21:14 2017 and based on the 75

Author(s)

Johannes Rainer

Examples

```
## load the library
##library(EnsDb.Mmusculus.v75)
## list the contents that are loaded into memory
ls('package:EnsDb.Mmusculus.v75')
## show the db object that is loaded by calling it's name
EnsDb.Mmusculus.v75

## for more examples see the ensemblldb package.
```
