Package 'ITALICSData'

March 5, 2026

Version 2.48.0

Date 2008-05-01

Title ITALICSData

Depends R (>= 2.0.0)

Author Guillem Rigaill

Maintainer Guillem Rigaill <italics@curie.fr>

Description Data needed to use the ITALICS package

License GPL

URL <http://bioinfo.curie.fr>

biocViews ExperimentData, HapMap

git_url https://git.bioconductor.org/packages/ITALICSData

git_branch RELEASE_3_22

git_last_commit e11b5f9

git_last_commit_date 2025-10-29

Repository Bioconductor 3.22

Date/Publication 2026-03-05

Contents

Hind.QuartetEffect   *Hind.QuartetEffect*

Description

It contains computed quartet effect for Hind array. Those were computed on some normal samples of the hapmap dataset.

Nsp.QuartetEffect   *Nsp.QuartetEffect*

Description

It contains computed quartet effect for Nsp array. Those were computed on some normal samples of the hapmap dataset.

---

quartet   *Quartet Info example for the vignette*

Description

An example for the vignette

Usage

```
data(quartetInfo)
```

---

snpInfo   *snp Info example for the vignette*

Description

An example for the vignette

Usage

```
data(snpInfo)
```

Sty.QuartetEffect   *Sty.QuartetEffect*

Description

It contains computed quartet effect for Sty array. Those were computed on some normal samples of the hapmap dataset.

Xba.QuartetEffect   *Xba.QuartetEffect*

Description

It contains computed quartet effect for Xba array. Those were computed on some normal samples of the hapmap dataset.
